90+ Architects

3 Global Offices

15+ Years of Excellence

About the Studio

Studio Symbiosis

Studio Symbiosis is an Architecture, Master Planning, Interior Design and Product Design firm operating across Stuttgart, London, and Delhi NCR — powered by a collective of over 90 architects united by a singular design vision.

Rooted in the essence of symbiosis — the dynamic exchange between elements that elevate one another — we see design as a living dialogue between innovation, sustainability, and human experience.

Fluidity meets precision. Technology meets artistry. Performance meets poetry.

OUR PHILOSOPHY

Design is not imposed on its environment — it evolves with it.

Forming a seamless harmony between nature, culture, and the future — at Studio Symbiosis, beauty is not separate from performance. It is integrated. It is alive.

We fuse architecture with landscape, technology with materiality, and vision with responsibility. Every layer is considered, integrated, and refined.

INNOVATE SUSTAIN INSPIRE

LEADERSHIP

The Founding Partners

AG

Amit Gupta

Founding Partner

MArch AA London | COA

Amit Gupta is a visionary architect and founding partner whose work pushes the boundaries of parametric and performance-driven design. Recognised in Forbes India's Top 30 Architects, he received the Hotel Architect of the Year award and was featured in 40 Under 40 in Architecture — Perspective Global, Hong Kong.

BK

Britta Knobel Gupta

Founding Partner

MArch AA London | DAAD Scholar

Britta brings European design finesse and global perspective to Studio Symbiosis. Winner of 40 Under 40 Europe (Chicago Athenaeum), T+L Champion of Innovative Hospitality Design 2024, and WADe India Excellence Award — she has shaped some of the studio's most celebrated interiors and hospitality projects.

PRODUCT INNOVATION

VERTO

360° Urban Air Purification System

About VERTO

VERTO is Studio Symbiosis's groundbreaking ambient air purification product — a multi-directional, 360-degree system designed to address urban air pollution at scale.

Conceived as an urban design element that purifies the air we breathe while enhancing the aesthetic character of public spaces, VERTO represents the intersection of product innovation, environmental consciousness, and design excellence.

- □ Red Dot Award 2023
- □ German Design Award 2024
- □ German Innovation Award 2024
- □ WA Award 43rd Cycle
